

## Accessories for Prism Poles

### Nedo Prism Pole Support Flexi-Grip

Upgrade your tripod with 5/8" thread. Simply attach Flexi-Grip to a tripod. When releasing the central clamping screw the support clamp can be moved three-dimensionally in any direction.

The prism pole is positioned on the target point and aligned with the bubble. Flexi-Grip follows every movement in any direction. Once the upright position is found the entire system is fixed by using the central clamping screw.

Very easy to handle.

With a tripod Flexi-Grip offers a secure stand and is therefore suitable for work in windy conditions.

**Ref.-No. 483 535**

### Prism Pole Bipod

Solid prism pole bipod with 2 telescopic legs. Height adjustable by means of a push-button.

Suitable for all Nedo aluminium prism poles.

**Ref.-No. 483 521**

### Extension for Prism Pole

1 m extension, suitable for all Nedo prism poles.

5/8" connecting thread on both ends.

**Ref.-No 383 615**

Errors and omissions excepted
