

Nedo® Product Information

Prism-mEssfix-S

Prism pole with analogue display. The built-in measuring tape displays the height of the centre of the prism in reference to the foot.

The extending sections are equipped with clamping screws, enabling each section to be locked in any position.

Working range: 1.53 m to 5.31 m.

The adapters for the most commonly used prisms are shown below.

Important: When placing your order, please state the exact type of prism you will use with the Prism-mEssfix-S and the connecting thread of your prism.

Ref.-No. 687 111

5/8" adapter
Ref.-No. 012 290

Leica adapter
Ref.-No. 053 530

Errors and omissions excepted

Precise surveying and measuring
