

Precise surveying and measuring

Nedo X-Liner 5P

Self-levelling 5-beam point laser

NEDO X-LINER 5P

Easy, single-button operation. Reliable, magnetically damped pendulum for precise results. The device selflevels automatically on inclines of up to 4° so that the laser points from the X-Liner 5P are always projected exactly vertically or horizontally.

Scope of delivery **X-Liner 5P**:

X-Liner 5P, universal adapter with 1/4" and 5/8" mounting thread and magnet, fixing straps, target board, batteries and carrying case

Ref.-No. 460 871

Nedo X-Liner 5P

Self-levelling 5-beam point laser which transmits three horizontal and two vertical laser points: to the front, left, right, up and down.

The laser points are arranged in an exact right angle to one another. The horizontal laser points are all at one height. Ideal for rapid horizontal levelling, vertical alignment, plumbing and for marking off right angles jobs.

Features:

- 5 highly visible laser points aligned exactly at right angles
- Reliable self-levelling operation
- Robust pendulum with magnetic damping
- Universal adapter with strong magnet, 1/4" and 5/8" mounting thread

Nedo X-Liner 5P

Ref.-No.	460 871
Accuracy	± 0.3 mm/m
Self-levelling range	± 4°
Working range Ø	approx. 30 m
Laser	Laser class 2, 635 nm
Protection class	IP 54
Power supply	2 x 1.5 V type mignon / AA
Operation duration	approx. 33 h
Connecting thread	1/4"
